

Guide: How To Participate In the MetaLaunch Private IMO/IGOs

Answering your questions about MetaLaunch Private IMO whitelisting rules and how to participate in a MetaLaunch Private IMO / IGOs

Key Takeaways

- ***Prepare a Metamask wallet***
- ***Stake \$ASVA or Provide Liquidity (ASVA/BUSD)***
- ***KYC Verification***
- ***Private Round IMO/IGOs***

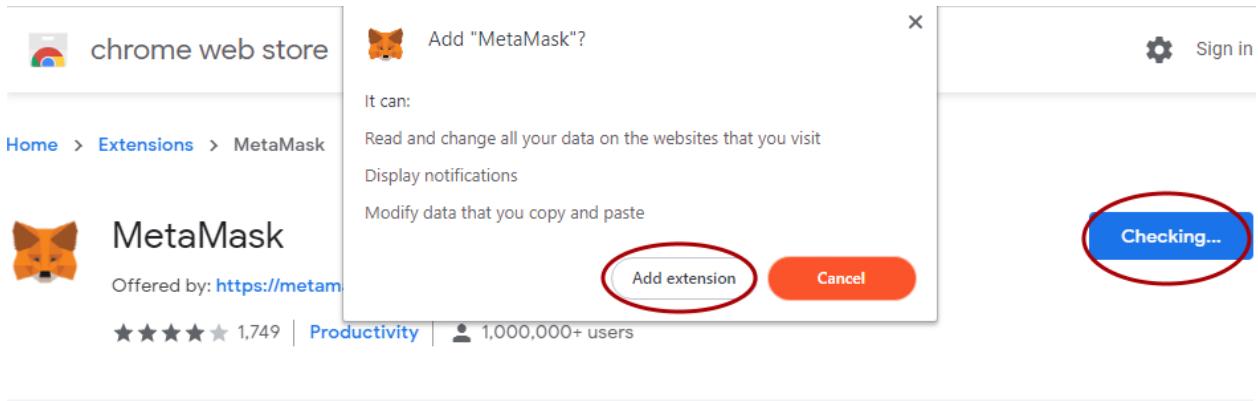

I : PREPARE A METAMASK WALLET

First and foremost, kindly note that MetaLaunch only supports DESKTOP MetaMask wallets. Please find detailed steps below to add and create a MetaMask wallet.

How to add Metamask wallet to the browser

1. Visit the MetaMask website <https://metamask.io/> or browser extension marketplace and download the MetaMask extension for your preferred web browser.

The screenshot shows the official MetaMask website. At the top, there's a blue header bar with the text "Sign up to get notified for the launch of our new mobile app" and a "Sign up" button. Below the header is the MetaMask logo (a fox icon) and the word "METAMASK". To the right is a three-line menu icon. Underneath, there are download links for "Chrome", "iOS", and "Android". A large section titled "Install MetaMask for your browser" features a mockup of the browser extension interface. The mockup shows an account balance of "1 ETH \$300,000.00 USD" with "Deposit" and "Send" buttons. Below this is a "History" section with a single entry: "#3 - 4/1/2019 at 11:30 Sent Ether CONFIRMED - 3 ETH - \$600 USD". The background of the main content area has abstract colorful shapes (circles and wavy lines) floating around the central mockup. At the bottom of the main content area is a blue button with the text "Install MetaMask for Chrome".

2. Activate the extension.

3. How to create a Metamask wallet

4. Once the extension is installed, you will be forwarded to a “Welcome” screen. Click on “Get Started”.

Welcome to MetaMask

Connecting you to Ethereum and the Decentralized Web.
We're happy to see you.

[Get Started](#)

5. Then click on “Create a Wallet”.

6. Create a password to access your MetaMask securely. Your new wallet comes with a secret backup phrase. Make sure to note down the phrase in a secure location for later uses.

New to MetaMask?

No, I already have a seed phrase

Import your existing wallet using a 12 word seed phrase

[Import wallet](#)

Yes, let's get set up!

This will create a new wallet and seed phrase

[Create a Wallet](#)

METAMASK

New password (min 8 chars)

Confirm password

I have read and agree to the [Terms of Use](#)

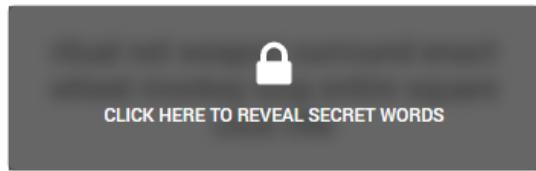

[Create](#)

Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

WARNING: Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

[Remind me later](#)

[Next](#)

Tips:

Store this phrase in a password manager like 1Password.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

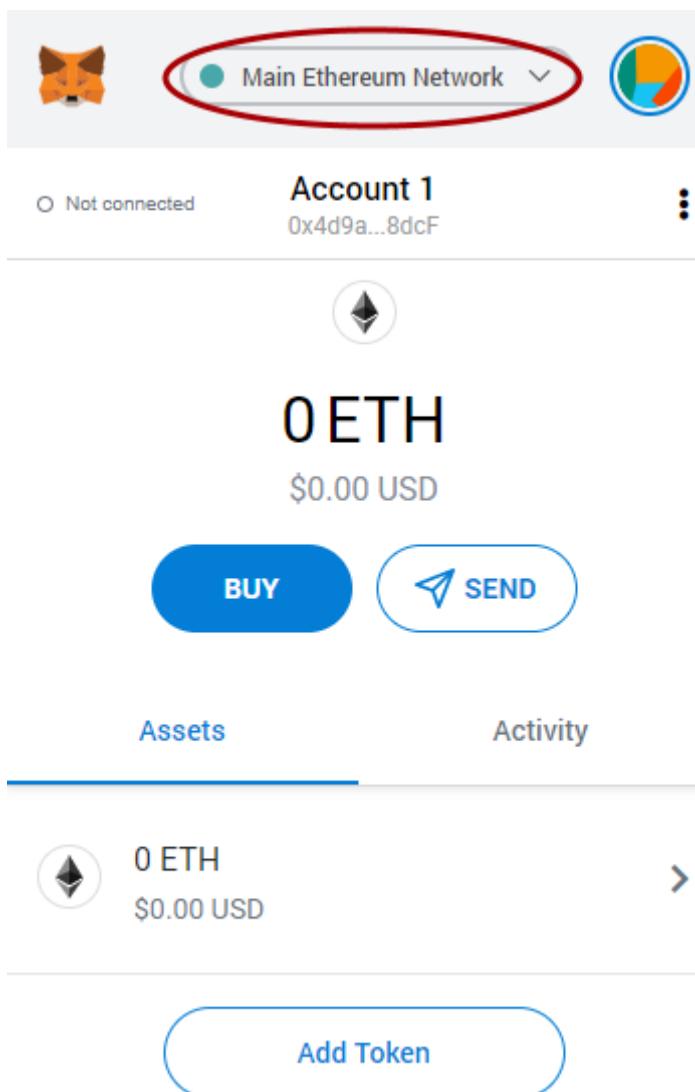

Memorize this phrase.

[Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.](#)

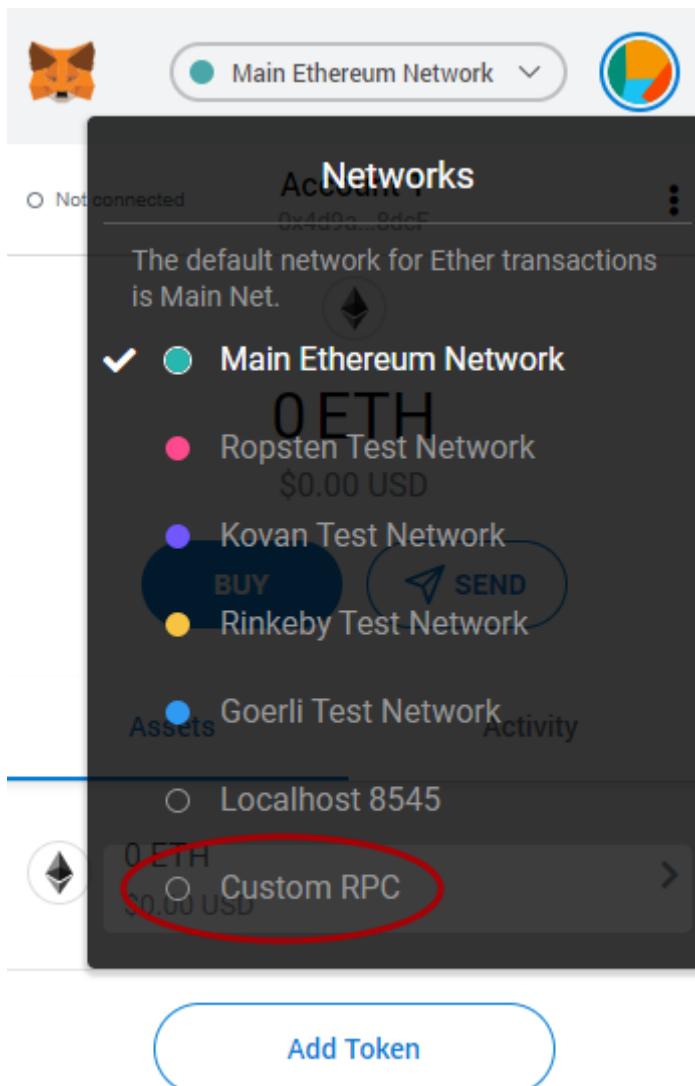

Connect MetaMask to BSC Mainnet

7. Connect Metamask wallet to BSC Mainnet

8. Metamask wallet supports a range of networks. Depending on the network listed by the project, you have to configure your wallet to the Mainnet. You can switch Mainnets without any hassle by clicking on this button:

9. If you haven't already added BSC to the list of networks, click on "Custom RPC".

10. Fill in the Mainnet details as below.

For BSC Mainnet:

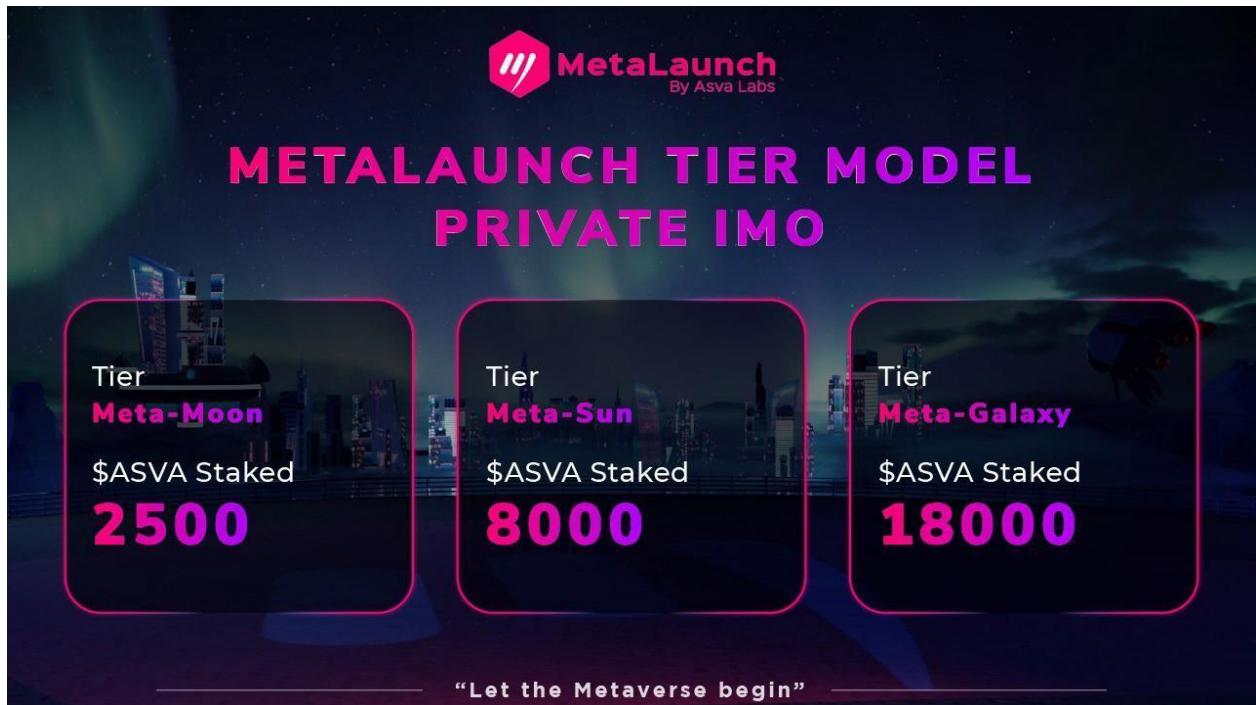

- Network Name: BSC Mainnet
- New RPC URL: <https://bsc-dataseed.binance.org/>
- ChainID: 0x38
- Symbol: BNB
- Block Explorer URL: <https://bscscan.com/>

Click save. Your Metamask is now good to go.

II : GET STARTED (BEFORE IMO)

- **Have your KYC verified.**
 1. Visit <https://app.metalaunch.io/> , connect to metamask wallet
 2. If not verified, Click ‘Verify KYC’ and get KYC verified.

- Stake \$ASVA tokens / Provide Liquidity (ASVA/BUSD) to gain access to MetaLaunch tiers and to participate in IMO (Initial Metaverse Offering) on MetaLaunch Launchpad.

To know more about the Tier eligibility visit:

III: User Guide on How to participate in MetaLaunch IGOs

PRIVATE ROUND

STEP 1: Go to www.metalaunch.io

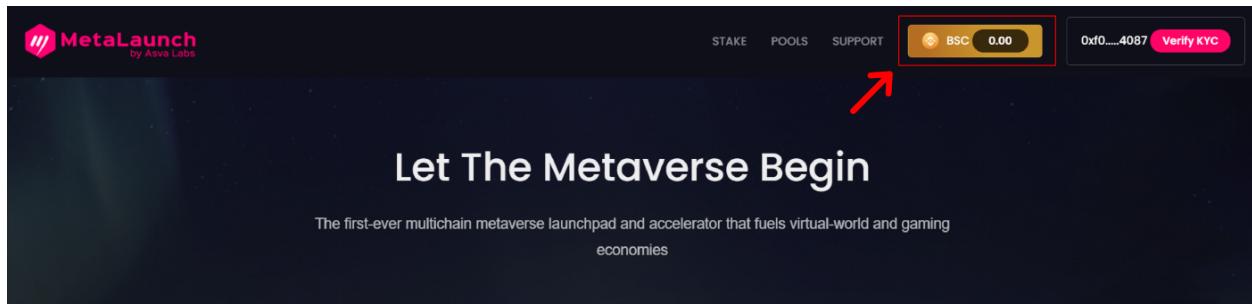

STEP 2: Click on ‘Launch App’

STEP 3: Connect your Metamask wallet to BSC. Steps are given above.

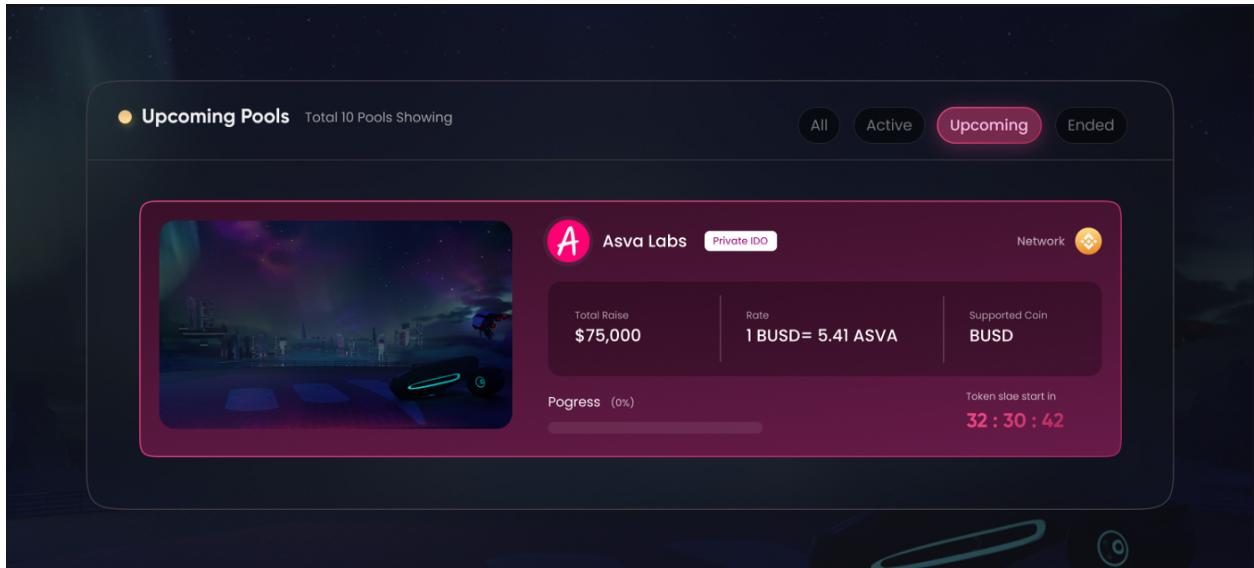

(Please use the same Metamask wallet address that was given for whitelisting and KYC.)

To participate in the IDO, connect Metamask to the page and select a network as listed by the project.

STEP 4: If your KYC is verified, the screen will show you are verified, if not, click on “Verify KYC” and it will take you to “Blockpass” to complete the KYC. Only participants whose KYC have been approved will be able to participate in the IMOs.

STEP 5: Once the KYC is verified, participants shall click on the project from the ‘Upcoming IDO’ section.

Step: 6 Based on the number of \$ASVA staked/LP provided, users shall be whitelisted with a particular tier allocation.

For Tier eligibility, please [read.](#)

The screenshot shows the MetaLaunch platform interface. At the top, there's a navigation bar with the MetaLaunch logo, a "BUY \$ASVA" button, a "STAKE" button, a BSC wallet section showing "123.092", and a user account section with "0x34...345 KYC Verified".

The main content area is titled "Upcoming Pools". It features a large thumbnail for the "Asva Labs" project, which includes a stylized letter "A" icon. Below the thumbnail, the project name "Asva Labs" is displayed, along with filter buttons for "Upcoming", "Private IDO", and "BSC Network".

A green button labeled "Whitelisting Started" is visible. Below it, social media icons for Facebook, Twitter, LinkedIn, and YouTube are shown. A timer indicates "Whitelist Ends In 06D : 09H : 30M : 42S".

Project details include:

- Total Raise: \$75,000
- Rate: 1 BUSD=5.41 ASVA
- Supported Coin: BUSD

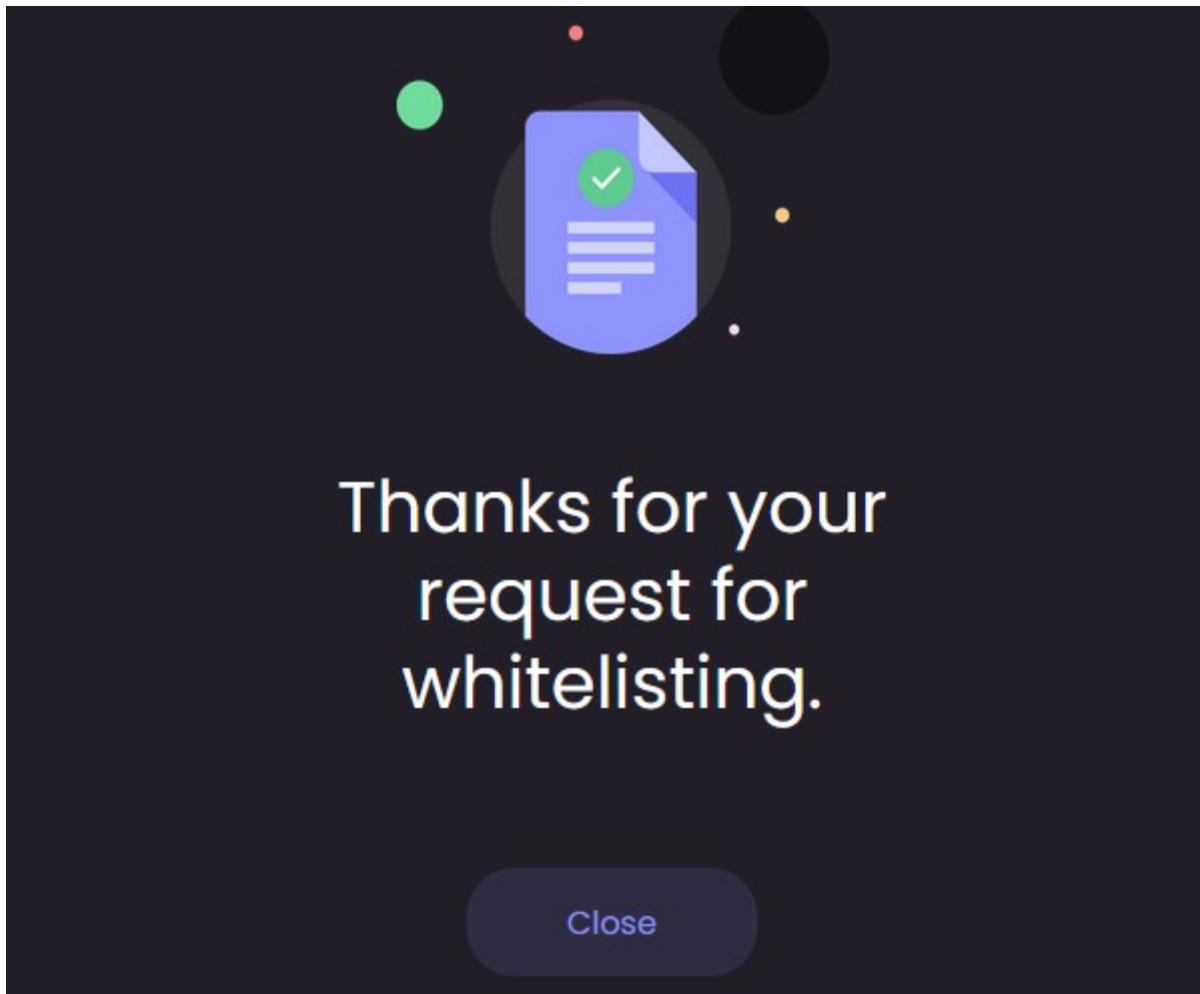

Below these details is a "Project Details" section with tabs for "Project Details", "Token Details", and "Allocation". The "Project Details" tab is active, showing the following information:

- About Project: Asva Labs is an innovation lab that is building a unified finance ecosystem to catalyze the metaverse movement. The suite of MetaFi applications maximizes the productivity of virtual ownership assets.
- Token Sale Date: 30TH DEC 2021 01:00 PM UST
- Token Distribution date: 30TH DEC 2021 05:30 PM UST
- Total Fundraise: \$75000
- Initial Market Cap: \$428071

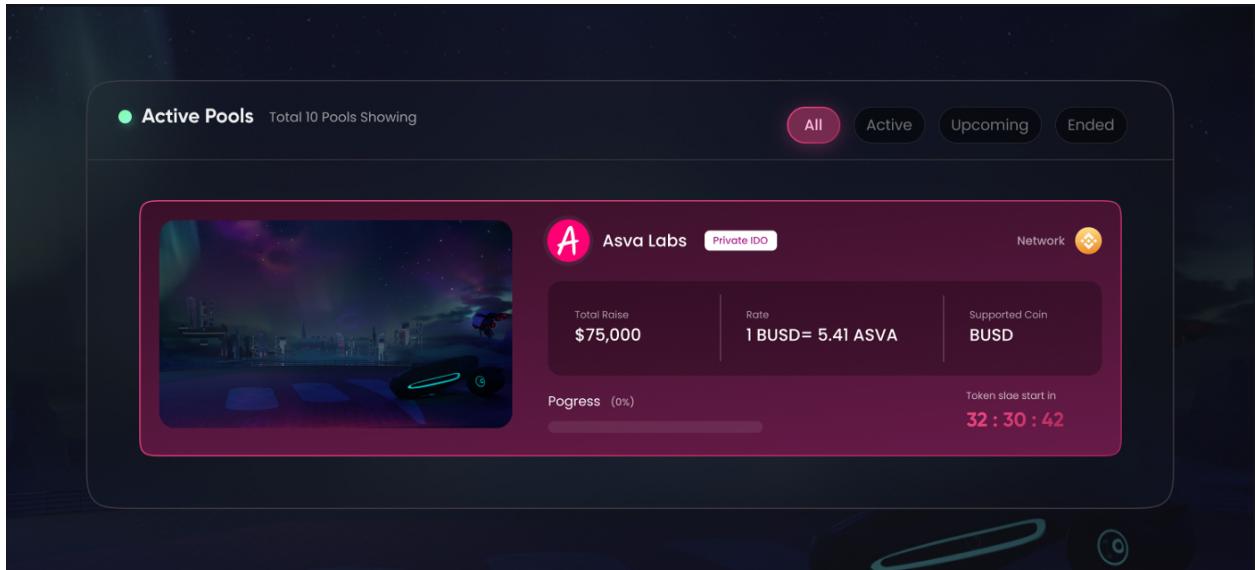

Links for "Whitepaper link", "One Paper", "Tokenomics", and "Audit Report" are provided. A note about restricted countries states: "United States of America, China, Hong Kong, and all sanctioned OFAC countries (DR Congo, Iran, Myanmar, Sudan, Iraq, Ivory Coast, North Korea, Syria, Zimbabwe, Cuba, Belarus, Liberia)".

At the bottom, the MetaLaunch logo and tagline "Multi-chain metaverse launchpad" are displayed.

User will click on “Join Whitelist”, following message will appear on the screen

STEP 7: When the IDO is live, click on “**Active Pool Section**” and select the project.

STEP 8: Click on 'Join pool'

'Join Pool' will be enabled for the user's wallet who have made it to the whitelisted and KYC Approved list. Users can also see the Tier they belong to.

After clicking on 'Join Pool', enter the amount you wish to buy. You can buy the maximum amount allocated to you.
