How to participate in IMOs on MetaLaunch

“Let the Metaverse begin”

MetaLaunch is Asva Lab's premier launchpad dedicated to metaverse and gaming projects. If you are on the lookout for opportunities to make the most of the metaverse movement that is revving up, we can help you out.

To help make interacting with the platform as intuitive as possible, we've created a simple step-by-step guide to interacting with the platform and participating in IMOs.

I : PREPARE A METAMASK WALLET

First and foremost, kindly note that MetaLaunch only supports DESKTOP MetaMask wallets. Please find detailed steps below to add and create a MetaMask wallet.

How to add Metamask wallet to the browser

1. Visit the MetaMask website <https://metamask.io/> or browser extension marketplace and download the MetaMask extension for your preferred web browser.

2. Activate the extension.

3. How to create a Metamask wallet

4. Once the extension is installed, you will be forwarded to a “Welcome” screen. Click on “Get Started”.

Welcome to MetaMask

Connecting you to Ethereum and the Decentralized Web.
We're happy to see you.

5. Then click on “Create a Wallet”.

6. Create a password to access your MetaMask securely. Your new wallet comes with a secret backup phrase. Make sure to note down the phrase in a secure location for later uses.

New to MetaMask?

No, I already have a seed phrase

Import your existing wallet using a 12 word seed phrase

Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

WARNING: Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

[Remind me later](#)

Tips:

Store this phrase in a password manager like 1Password.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

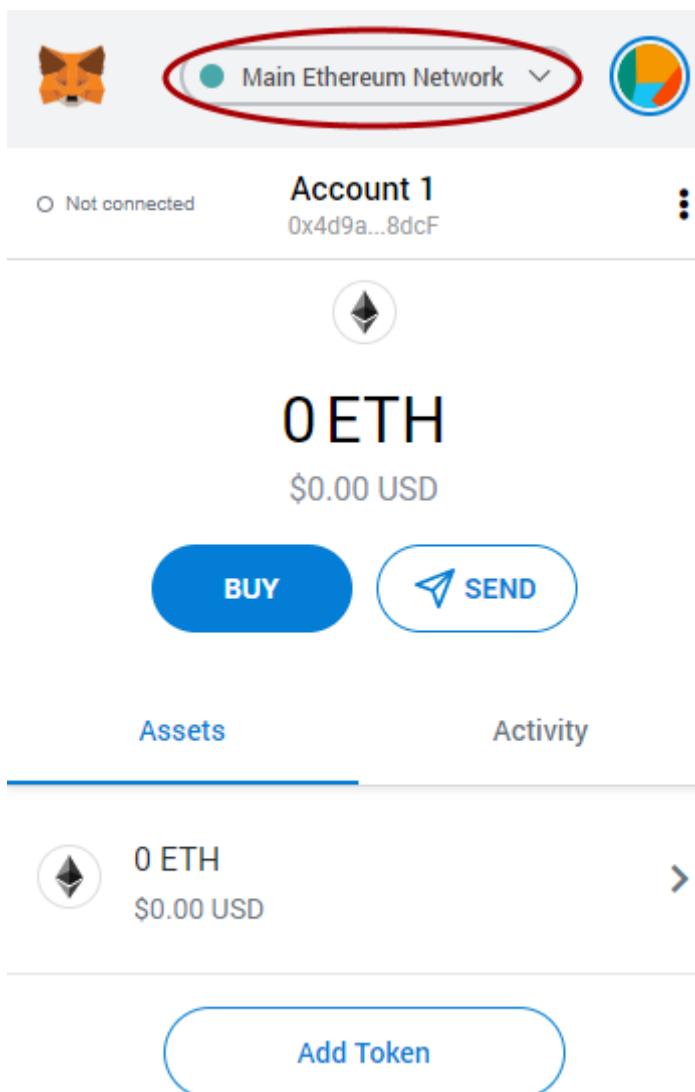

Memorize this phrase.

**Download this Secret Backup
Phrase and keep it stored safely on
an external encrypted hard drive or
storage medium.**

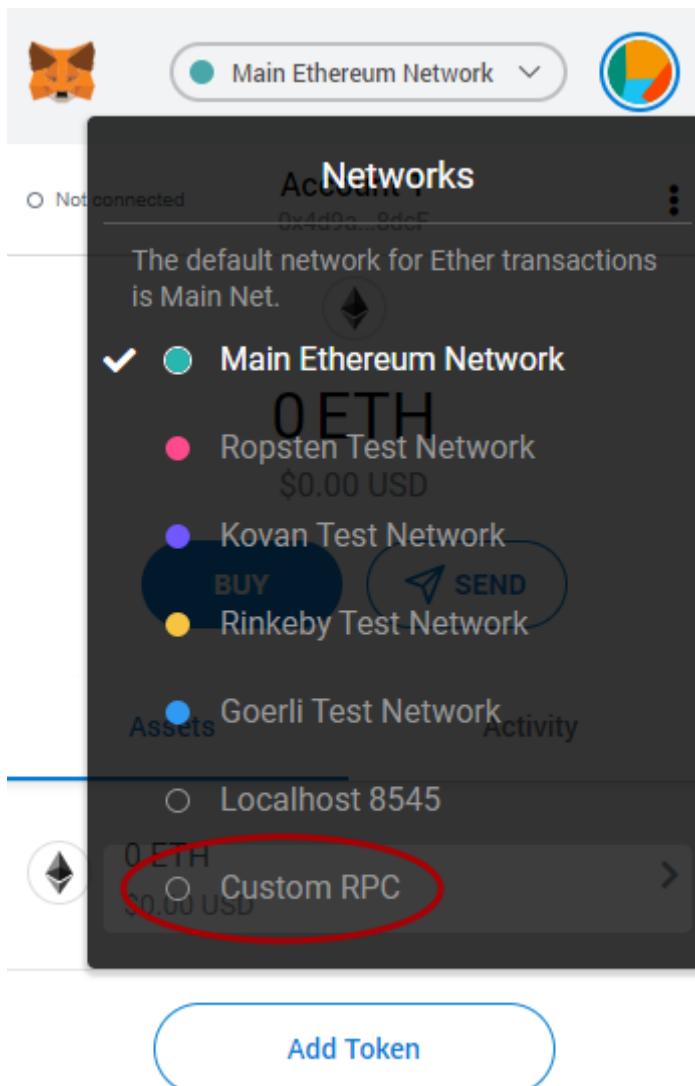

Connect MetaMask to BSC/Polygon Mainnet

7. Connect Metamask wallet to BSC/Polygon Mainnet

8. Metamask wallet supports a range of networks. Depending on the network listed by the project, you have to configure your wallet to the Mainnet. You can switch Mainnets without any hassle by clicking on this button:

9. If you haven't already added BSC and Polygon to the list of networks, click on “Custom RPC”.

10. Fill in the Mainnet details as below.

For BSC Mainnet:

- Network Name: BSC Mainnet
- New RPC URL: <https://bsc-dataseed.binance.org/>
- ChainID: 0x38
- Symbol: BNB
- Block Explorer URL: <https://bscscan.com/>

For Polygon MainNet:

- Network Name: Polygon
- New RPC URL: <https://polygon-rpc.com> or

<https://rpc-mainnet.matic.network> or

<https://rpc-mainnet.maticvigil.com> or

<https://rpc-mainnet.matic.quiknode.pro>

- ChainID: 137
- Symbol: MATIC
- Block Explorer URL: <https://polygonscan.com/>

Click save. Your Metamask is now good to go.

II : GET STARTED (BEFORE IMO)

- **Have your KYC verified.**
 1. Visit <https://app.metalaunch.io/> , connect to metamask wallet
 2. If not verified, Click 'Verify KYC' and get KYC verified.

KYC is only applicable for Public round

- **Stake \$ASVA tokens / Provide Liquidity (ASVA/BUSD) to gain access to MetaLaunch tiers**

and to participate in IMO (Initial Metaverse Offering) on MetaLaunch Launchpad.
